

QEHS POLICY

We are committed to work for sustainable development and continual improvement through:

- Meeting specific requirements of the customers to achieve customer satisfaction.
- Making concerted efforts to obtain technical expertise and human excellence.
- Optimum Utilization and Conservation of Natural Resources.
- Proper implementation of emergency control procedures.
- Improving Environmental and Occupational Health & Safety performance by providing adequate resources, proper maintenance of the equipment & machinery and usage of materials.
- Compliance with Legal and other requirements of Environmental, Health & Safety related to QEHS management i.e., at all our offices, works and site located at different places.
- Provision of adequate training related to quality, environment, health & safety of all employees.
- Maximizing gross margin by adopting total quality management in all spheres of the organization's activities.
- Provide safe and healthy working conditions for the prevention of work-related injury.
- Provision of adequate control methods for improving environmental performance, prevention of ill health & occupational health related issues and achieving excellent performance by effective implementation of Quality, Environmental, Health & Safety Management System (QEHS) as per ISO 9001:2015, ISO 14001:2015 & ISO 45001:2018.
